

Wanjiru Njuguna

Full-Stack Developer

Passionate and detail-oriented junior full-stack developer seeking an entry-level position where I can apply my skills in HTML, CSS, JavaScript, React, Django, Python, and relational databases to build engaging, user-friendly, and secure web applications. Eager to contribute to a dynamic team and grow my expertise in web development.

Experience & Projects

2023-2024

Founder | E-commerce Website

- Developed a website for my hobby food business.
- Key features: authentication, UI & UX, shopping cart, checkout, and database.
- Technologies: JavaScript, HTML, CSS, Django, Python, MySQL, Git.
- Deployed on Render.com.
- Live site: <https://ebakery-2.onrender.com/>
- Git repository: <https://github.com/wanjiru-njuguna/ebakery>

2021-2024

This Perfect Mess

Founder

I started my brand on a [WordPress website](#). I am the sole owner. My day-to-day responsibilities include:

- Developing and maintaining web applications using HTML, CSS, JavaScript, Python, Django, and MySQL.
- Implementing features and fixing bugs.
- Utilizing Git for version control.
- Managing web hosting tasks, including cPanel configuration, FTP management, and domain setup.
- Enhancing site load time through optimization techniques such as image compression, and use of CDN.

2020- 2022

Kiragu & Mwangi LTD

Assistant Property Manager

Worked as a point of contact between clients and the management company.

My day-to-day responsibilities included:

- Ensuring proper relationships between tenants and the management.
- Rent collection from tenants and accounting.
- Reminding tenants to pay their bills.
- Supervision of hired laborers and contractors.
- Ensuring the smooth running of the property and scheduling maintenance.
